

Know exactly if, when, and where service occurred
with completely automated verification for
AUTOMATED SIDE LOADERS.

Let drivers drive. We'll handle the rest.

The Solution

Introducing the 3rd Eye Residential Refuse Solutions Suite, powered by Verif-Eye® - your all-in-one operations toolkit. The 3rd Eye team specializes in refuse management and constantly expands our portfolio of solutions to address the unique challenges of each residential application.

With Verif-Eye, you can passively verify service completion as your drivers carry out their routes. Our system automatically captures video/photographic evidence of service events, giving you complete peace of mind. Our user-friendly interface allows drivers to easily confirm service exceptions, streamlining the process. In case a driver forgets to confirm, our seamless experience lets you access video footage of any missed service with a single click.

At 3rd Eye, we collaborate with equipment manufacturers and are well-versed in the operation of your specific body solutions. Our industry expertise elevates your operations by connecting your services with your customers. The integrated service options enable you to incorporate customer data and understand the information behind each service event. This valuable information, along with supporting media, geocoordinates, and time and date stamps, is readily available on the portal in near real-time.

Our commitment to continuous improvement is fueled by your success. With our service review solutions, our team of experts can examine each event based on the criteria you're looking to identify, such as overloaded containers. We are here to support you, offering our best practice guidance every step of the way!

Verif-Eye - Residential Refuse

Service verification solutions to achieve winning
through outstanding customer relationships.

The Challenges

Understanding your residential waste collection operations in the field can be complex. You dispatch your fleet to serve customers and drive success, but each day presents new challenges. To thrive in the unique world of waste collection, it's crucial to determine if your fleet is meeting daily expectations. Given the variety of routes, ensuring that the right customers are serviced appropriately can be a logistical challenge.

Refuse collection involves numerous equipment types that you may use to successfully serve your customers. To add further complexity, you might need to utilize equipment from various manufacturers. With so many factors in play, it's no surprise that your team may encounter difficulties occasionally. Even the most competent operations team may not be perfect; however, with 3rd Eye® Digital by your side, we'll be there to help your team become best in class!

Designed For

Value Overview

- Minimize go-backs
- Capture service completion
- Calculate total cost of collection
