

BAYNE THINLINE FOOD SERVICE SERIES LIFTERS

Commercial and Industrial Lifters for Food Service Applications

Innovative. Economical. Efficient.

Bayne® Thinline® has been in business for more than 50 years and is proud of our reputation as a leader in the solid-waste industry. Our proven lines of hydraulic cart lifters are designed, manufactured, and assembled in America at our facility in Fort Payne, AL. This enables Bayne to maintain complete control over the production process, ensuring that you receive a high-quality, reliable product each and every time.

Bayne Thinline Food Service Series Lifters are specifically designed for the food-service industry and are the ideal lifting solution for cafeterias, restaurants, supermarkets, bakeries, commercial kitchens, and more. Sized to fit typical waste containers, these lifters make short work of waste disposal. They are equipped with a chute to prevent spillage, can be fixed or movable, and include fork pockets for easy transport.

Enhance worker safety and minimize back injuries with Bayne Thinline Food Service Series lifters.
