**2025 Marathon[®]
Service School Training**

Service School Agenda

1. **Safety.** General Safety is always a must from everyday activities to well beyond using and working on equipment. Safety must always come first and be used and always maintained in everything we do. We will explain Lock Out/Tag Out and its importance.
2. **Major Components.** Location and system involvement of major components in the system.
3. **Marathon Products and Services.** We provide information on the Marathon product offering and the application of our product line.
4. **Electrical Symbols.** Learn electrical symbols to help understand circuits, certain ways electrical devices are wired, and how they work are key elements for troubleshooting and understanding electrical schematics.
5. **Electrical schematic reading.** We teach the electrical schematic symbols for the components that make up the Marathon control panels.
6. **Hydraulic schematic.** Hydraulic Schematics, like Electrical Schematics, are road maps for Hydraulic Systems, showing detailed hydraulic routings and independent mapping. Learning how to read schematics will help you understand hydraulic circuits and where to find certain hydraulic components and connections. Reading Hydraulic Schematics is essential for troubleshooting the hydraulic system.
7. **Electrical panel boxes.** Day two is a full day of actual "hands-on" equipment identification and their operation. We will wire panels and simulate or discuss faults that may arise in the field.
8. **Preventative maintenance.** We include proper preventative maintenance schedules and discuss the importance of maintaining the equipment.
9. **ANSI.** Information covering ANSI safety guidelines.
10. **Open discussion.** Roundtable question and answer periods.
11. **Plant Tour.** We give the attendees a tour of the facility and show how the Marathon product is assembled in the factory.

2025 FACTORY Service School Training Schedule

Factory Training Dates*	Product	Time
June 3rd, 4th and 5th	Auger Service School	8am – 4:30pm CST
July 22nd, 23rd and 24th	RamJet Service School	8am – 4:30pm CST
Aug. 12th, 13th, and 14th	RamJet Service School	8am – 4:30pm CST
Sept. 23rd, 24th and 25th	RamJet Service School	8am – 4:30pm CST
Oct. 28th, 29th and 30th	RamJet Service School	8am – 4:30pm CST
Nov. 11th, 12th and 13th	RamJet Service School	8am – 4:30pm CST

* Subject to change

- Maximum number of students = 12
- Minimum number of students = 8
- If the minimum number is not confirmed 4 weeks prior to the start of the class, then the class *can* be canceled at the instructor's discretion.
- Students will be given a Service Manual (\$250 Value) for the product and a training manual containing the electrical and hydraulic exercises covered in class.
- Class will start promptly at 8am CST each day.
- Lunch is scheduled from noon until 1pm.
- All students must wear long pants. Steel-toed shoes on Thursday if attending the plant tour. Safety glasses and visibility vests will be provided.
- This is a tobacco-free facility. Please plan accordingly.

Please email nexteligen@doveresg.com to schedule on-site training classes.

Parking is available behind the Engineering Building across
the road from the manufacturing facility.
