

MARATHON CONNECTED BALER PROGRAM

BEST BRAND. UNMATCHED CUSTOMER VALUE. ALL EYES ON YOUR BUSINESS.

(1) ANTENNA

Boosts cellular signal to ensure reliable performance

(2) DIGITAL INDICATOR

Displays weight of the material during the baling process

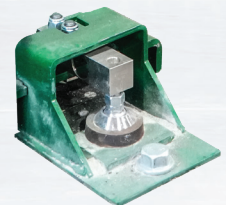

(3) STRUCTURAL COMPONENTS

Supports and contains all hardware systems

(7) ELECTRICAL COMPONENTS

Supports and contains all electrical systems

(6) LOAD CELLS

Weighs material during the baling process

(5) PRINTER

Prints label to be affixed to bale once ejected

(4) DIGITAL HARDWARE

Captures data and transmits via cellular network to the cloud

ASSET MANAGEMENT, WASTE METERING, AND PRODUCTIVITY SOLUTIONS

The Marathon® Connected Baler program provides predictive asset availability, preventative maintenance, and service agreements, along with extended warranty options on both new and remanufactured units. It uses genuine OEM parts and provides tools for recycling material traceability, enterprise sustainability tracking, and contamination reduction, ensuring optimal equipment usage and minimizing disposal costs. Supported by industry-leading compactors and balers, and the innovative Connected Collections® digital strategy, this program allows businesses to **focus on the front of the store and leave the back to us.**
